Extra Curriculum

Cheerleading

2022 - 2024

Sol Plaatje University Cheerleading Team

- I was part of the SPU Cheerleading team and I was one of the team flyers. The first time my team went for competitions, we won 2nd place for all girls routine which really made me happy because it was our first time competing.
- In 2023, I was elected to be part of the committee and I was the treasurer. I had to come up with a few ideas on how we could raise funds towards national competitions and after putting in all the hard work and devotion, we managed to raise enough money to go compete nationally as cheerleaders. I was really invested in serving the team because our institution always gave us a tight budget that could not cover all our needs. I did my job so well that in 2024, I was elected to be the treasurer again.
- Joining this team was one of the best decisions I had ever made because I got out of my comfort zone, this is where my communications skills, team work and leadership skills were sharpened.
